Psychology 8032
Assignment 1 – Due January 22 by 5PM

I.   Begin looking for datasets that you could use for future assignments.
      a. Appropriate data would include:
            i. Data from studies using multiple different instruments to assess the same construct (i.e., 3 or more measures)
                  1. Ideally, multiple measures of multiple constructs.
           ii. Multiple questionnaire items assessing the same construct
                  1. Ideally 5 or more response options
          iii. Assessment of the same construct over time
                  1. Ideally at least 4 time points
                      a. 3 time points is adequate
      b. Ideal datasets would have at least 200 cases

If you have data from different datasets to fulfill different pieces of these data needs.
